

NATIONAL RESPONSE & RECOVERY PROGRAM

ABOUT HEPACO

Founded in 1984, **HEPACO, LLC** (HEPACO) is a professional environmental services company with strategically-located service centers providing coverage throughout the Eastern United States, and beyond.

NATIONAL RESPONSE & RECOVERY PROGRAM

HEPACO has highly-trained personnel and state-of-the-art equipment ready and able to respond nationally to a variety of emergent and non-emergent events. We execute our service offerings by combining our own internal resources with a sophisticated and expansive network of vetted and trusted emergency response partners located throughout North America. This innovative approach to partnering gives HEPACO the ability to support large-scale operations whenever and wherever they occur. From flooding, hurricanes, tornadoes and other natural disasters, to major waterway releases, derailments, pipeline releases, significant roadside spills, and large-scale facility contamination, the **HEPACO National Response & Recovery Team** is your **ONE CALL** for emergency support.

SAFETY IS AT THE HEART OF OUR CORE VALUES

HEPACO has a deeply-ingrained safety program that is embraced across every level of our organization. We maintain an **Experience Modification Rating (EMR) of 0.81**. All HEPACO field personnel receive extensive training and are part of a medical monitoring program. In addition to HAZWOPER, RCRA, DOT, confined space entry/rescue and first aid/CPR training, we maintain a wide variety of certifications, including **SafeLand, Pipeline Operator Qualified (OQ), Loss Prevention Systems (LPS), API Tank Entry Supervisor (TES), and API WorkSafe**. HEPACO is pre-qualified by the contractor screening consortiums ISNetwork, CCS, PEC Premier and Avetta. We are also a permitted hazardous waste transporter and a U.S. Coast Guard classified **Oil Spill Response Organization (OSRO #32)**.
